

3D Models For Free

We have a directory for locating 3d models and textures, most of the links are for free 3d models. We have located models for Poser, Studio Max, Bryce, Lightwave, Maya, CAD and various other 3D programs to help with your modeling needs.

Most download sites are grouped according to the file format, some sites have more than one format, if there is not a dominant format, the site will be found under Mixed file types.

There are also free to use 3d programs available, TrueSpace, POV Ray, Google Sketchup, Wings 3D, and Blender

We have separated out the commercial modelers for those looking for specific or non-free models.
